

## AGENCY PROVIDERS-TIPS TO REMEMBER WHEN CONDUCTING SEMI-ANNUAL AND ANNUAL ANALYSIS OF MUIS

**Only include MUIs that occurred during time that your agency staff was responsible for/serving individual, discovered an MUI or if you provide around the clock care of the individual as listed in O.A.C. 5123:2-17-02 (D) (1)-(3).**

*Best Practice:* ICF's analysis should include all incidents (regardless of where they occurred) due to Medicaid requirements for health and safety.

- Example: If Johnny comes home from work and states that a peer hit him and that is where the black eye came from– that would only be included in your analysis if your agency provided the work service OR your agency provides around the clock service to the individual.

*Make sure you include:*

- Date of the review: Names/titles of the person/persons who conducted the review.
- Time span of the review: The Semi-Annual Analysis should be completed for the time period of January-June 30 while the Annual should contain information from Jan-December 31.
- List of services included in your agency's review (Residential, Vocational program, etc.)
- Comparison data for previous 3 years: (i.e. 2010, 2011, and 2012). You should always be comparing the data from year to year to identify trends/patterns comparatively.
- Explanation of data.
- Data for review by major unusual incident category type; Total number of consumers being served in each program (residential, vocational, etc.)
- Specific individuals involved in established trends and patterns (i.e., five major unusual incidents of any kind within six months, ten major unusual incidents of any kind within a year, or other pattern identified by the individual's team);
- Previously identified trends and patterns; and
- Action plans and preventive measures to address noted trends and patterns

Tips:

- Include causes and contributing factors as to why trends are occurring (i.e. Johnny's mother passed away contributing to a temporary increase in aggression at home which resulted in unapproved behavior supports being utilized.
- Include causes and contributing factors as to why these trends are occurring (i.e. a decrease in misappropriation was noted due to the addition of personal lockers being provided to consumers in 2012.
- Review previously identified trends and patterns from the previous year (both program specific and individual specific) and discuss the effectiveness of the action plans that were initiated.
